Streamlined and easy to use, designed to meet the work order management and unit inspection needs of non-profit housing providers.

NewViews Work Orders and Unit Inspection App

Work Order Management

Create, assign, modify and track work orders, with the option of including images. Plan and schedule maintenance through to any date in the future to help prevent costly repairs.

Unit Inspections

Schedule and assign unit inspections that are performed using customizable inspection templates. Generate work orders on the fly to correct any issues found.

Mobile Interface

Anyone with authorized access can manage work orders and unit inspections on-the-go through a mobile interface (laptop, tablet, smartphone).

NewViews Work Orders and Unit Inspection App

You don't have to switch your accounting software to use the NewViews Work Orders and Unit Inspection App!
